STS2304 Surgical Technologist Practicum I

Suggested readings for each module

Module 01

Study Island: This course module contains specific information for students to review in the area of microbiology. Students have a specific area assigned to them in Study Island that incorporates lesson 1-11 and a 30 question "practice" quiz. Practicum I, Module 01, Microbiology

Textbook: Alexander's Care of the Patient in Surgery, review Chapter 4

Module 02

Study Island: This course module contains specific information for students to review in the area of Equipment Sterilization. Students have a specific area assigned to them in Study Island that incorporates lesson 1-8 and a 30 question "practice" quiz. Practicum I, Module 02, Equipment Sterilization

Textbook: Alexander's Care of the Patient in Surgery, continue review of Chapter 4

Module 03

Study Island: No new Study Island content is introduced in this module but students may benefit from reviewing prior lessons.

Textbook: Alexander's Care of the Patient in Surgery, continue review of Chapter 4

Module 04

Study Island: This course module contains specific information for students to review in the area of Surgical Pharmacology. Students have a specific area assigned to them in Study Island that incorporates lesson 1-12 and a 30 question "practice" quiz. Practicum I, Module 04, Surgical Pharmacology

Textbook: Surgical Technology for the Surgical Technologist, review Chapter 9

Module 05

Study Island: This course module contains specific information for students to review in the area of Surgical Case Management. Students have a specific area assigned to them in Study Island that incorporates lesson 1-11 and a 30 question "practice" quiz. Practicum I, Module 05, Preparing the Patient

Textbook: Frey, 5th ed. Chapter 14: General Surgery Surgical Technology for the Surgical Technologist, review Chapter 12
Module 06

**Students will be taking a 60-question exam covering Modules 01-05.** (Midterm)

Module 07

**Study Island** This course module contains specific information for students to review in the area of Postoperative Procedures. Students have a specific area assigned to them in Study Island that incorporates lesson 1-10 and a 30 question "practice" quiz. **Practicum I, Module 07, Postoperative Procedures**

**Textbook:** *Alexander's Care of the Patient in Surgery*, review Chapter 2, *Surgical Technology for the Surgical Technologist*, review Chapter 12

Module 08

**Study Island** This course module contains specific information for students to review in the area of Anatomy and Physiology. Students have a specific area assigned to them in Study Island that incorporates lesson 1-6 and a 30 question "practice" quiz. **Practicum I, Module 08, Anatomy and Physiology (lessons 1-6)**

**Textbook:** *Alexander's Care of the Patient in Surgery*, review Chapters 9 and 11

Module 09

**Study Island:** This course module contains specific information for students to review in the area of Anatomy and Physiology. Students have a specific area assigned to them in Study Island that incorporates lesson 7-12 and a 30 question "practice" quiz. **Practicum I, Module 09, Anatomy and Physiology (lessons 7-12)**

**Textbook:** *Alexander's Care of the Patient in Surgery*, review Chapters 9 and 11

Module 10

Begin review in preparation for final exam.

- *Alexander's Care of the Patient in Surgery*,
  - Review Chapter 2
  - Review Chapter 4
  - Review Chapter 9
  - Review Chapter 11
- *Surgical Technology for the Surgical Technologist*,
  - Review Chapter 9
  - Review Chapter 12
• **Study Island Lessons**,  
  o Review Practicum I, Module 01, Microbiology  
  o Review Practicum I, Module 02, Equipment Sterilization  
  o Review Practicum I, Module 04, Surgical Pharmacology  
  o Review Practicum I, Module 05, Preparing the Patient  
  o Review Practicum I, Module 07, Post-operative Procedures  
  o Review Practicum I, Module 08, Anatomy and Physiology (lessons 1-6)  
  o Review Practicum I, Module 09, Anatomy and Physiology (lessons 7-12)

**Module 11**

*Students will be taking a 100 question exam covering material from throughout the course.*
